Are you (not so) patiently waiting for Fallout 4 to come out next week? Are you frustrated when you go to install Fallout New Vegas on your Mac—for some Fallout fun while you wait, of course—only to find it's PC-only? Save your Darth Vader scream (James Earl Jones, not Hayden Christensen), there is (a new) hope! You can play the Fallout series and you don't have to drop \$500 on an Xbox to play on a console.
